

CCLP CCA Involuntary Seclusion Restraint Reporting

--

12. A description of the steps the program has taken to decrease the use of restraint and involuntary seclusion.

CDTP has been taking additional steps that include a daily debrief on client successes and struggles, practicing being more present when supporting clients, and increasing visual aids to support clients while transitioning between activities. In addition, the CDTP team has started a plan to review and practice Safety Care procedures more frequently. ADTP: Continued use of CPS (identifying areas where clients struggle and modifying expectations until durable plans are made with client), continued training of staff in verbal de-escalation. Identifying triggers and developing plans to reduce likelihood of them occurring
